

BKS Environmental Associates, Inc.

Position: Soil Scientist

Location: Gillette, Wyoming

BKS Environmental Associates, Inc., based in Gillette and Rock Springs, Wyoming, was incorporated in 1981. BKS specializes in soils, vegetation and wetland assessments as they relate to baseline pre-disturbance assessments, reclamation and environmental monitoring. Major industries that we serve include mineral extraction and oil and gas. BKS also works with other industry and governmental entities that reclaim disturbed sites. At BKS, our mission is to provide the highest quality technical soils, vegetation, and wetlands based natural resource services to all our clients.

Requirements:

- Minimum BS in Soil Science or a soils related field
- Proficiency with MS Office software (Excel, Word, Access, etc.)
 - ARCview or AutoCad capability is desirable
- Experience with soil mapping and writing soil profile descriptions is preferred
- Excellent written and oral communication skills in English
- BKS will provide necessary safety training to work on mines and other energy development areas. Specific on the job training will also be provided as necessary.

Skills:

- Enjoys working in the outdoors in a field oriented job
- Ability to work independently in a challenging field environment
- Interacts well with clients and co-workers
- Has experience with field observation and data collection

Duties:

- Perform soil classification at an Order 1-3 level and to the series level
- Design soil sampling programs to evaluate baseline conditions and provide reclamation recommendations
- Operate soil sampling equipment; knowledge of Giddings samplers is desirable
- Prepare results, written summaries, tables and graphs for use in project reports
- Assist with quality assurance and control for data gathering and report writing
- Analyze historical information and laboratory data from outside sources
- Collaborate and consult with project managers, clients, and biologists and scientists from various disciplines, to conduct data analyses for reports and scientific manuscripts
- Frequent travel and extensive hours may be required
- Willingness to travel out of town
- Conduct field work in adverse weather conditions
- Assist in marketing efforts
- Perform other duties as directed by your supervisor

Compensation:

- \$30,000 to \$40,000 annually - Commensurate with experience
- Benefits package that includes retirement, health insurance, health savings account and a generous time off policy

About Gillette, Wyoming:

Gillette is located in the northeastern corner of Wyoming within an hour of the Big Horn Mountains to the west and the Black Hills to the east. Campbell County is located in the heart of the resource rich Powder River Basin, providing over 40 percent of the nation's annual coal production. Energy and supporting industries result in a growing population and expanded construction industry. Gillette offers many recreational opportunities including the CAM-PLEX Multi-Event Facility, golfing, hiking, hunting, biking, snowmobiling, and many youth activities.
